

## Environmental Policy

MIX&VEND is a London-based company specialising in the provision of vending machines for hire and sale, along with services for stocking and maintaining these machines. As a responsible organisation, we recognize the importance of environmental sustainability and are committed to minimising our environmental impact. This Environmental Policy outlines our commitment to sustainable practices and our responsibility to promote environmental stewardship in all aspects of our business operations.

### Reduction of Environmental Footprint:

1. We strive to minimise our environmental footprint by implementing practices that reduce energy consumption, water usage, waste generation, and greenhouse gas emissions. We are committed to continuously improving our operational efficiency and adopting sustainable technologies and practices throughout our organisation. This includes using energy-efficient vending machines and optimising routes to reduce fuel consumption during stocking and maintenance activities.

### Waste Management:

2. We are dedicated to responsible waste management practices. We promote waste reduction, recycling, and responsible disposal of waste materials generated during our operations. We encourage the use of recyclable materials in our vending machine products, packaging, and other consumables. We aim to collaborate with suppliers and partners who share our commitment to sustainable waste management.

### Energy Efficiency:

3. We prioritise energy-efficient practices across our operations. This includes using energy-efficient vending machines that are designed to minimise energy consumption. We promote the use of energy-saving technologies, such as LED lighting in our machines.

### Water Conservation:

4. We recognize the importance of water conservation and strive to minimise water usage in our operations. We implement water-efficient practices, such as using water-saving technologies in our vending machines and facilities. We promote awareness among employees and stakeholders about the importance of water conservation and encourage responsible water usage.

### Sustainable Procurement:

5. We prioritise sustainable procurement practices by sourcing environmentally friendly products and services. We collaborate with suppliers who demonstrate commitment to environmental responsibility, seeking products and materials with minimal environmental impact. We encourage suppliers to adhere to recognized environmental standards and certifications.

### Emissions Reduction:

6. We are committed to reducing greenhouse gas emissions associated with our operations. We regularly assess our transportation practices and explore opportunities to optimise routes, reduce mileage, and transition to low-emission vehicles. We promote the use of public transportation and carpooling among our employees and contractors when not carrying stock.

Environmental Compliance:

7. We are committed to complying with all applicable environmental laws, regulations, and standards. We strive to exceed minimum requirements and voluntarily adopt additional measures to promote environmental sustainability. We regularly monitor changes in environmental regulations and proactively adjust our practices to ensure compliance.

Employee Engagement and Awareness:

8. We believe that employee engagement and awareness are crucial to achieving our environmental goals. We provide training, resources, and regular communication to employees to raise awareness about environmental issues and best practices. We encourage employee participation in sustainability initiatives and foster a culture of environmental responsibility.

Continuous Improvement:

9. We are dedicated to continuous improvement in our environmental performance. We set specific goals and targets to measure our progress and regularly review our practices to identify areas for improvement. We welcome feedback from employees, clients, and stakeholders to help us enhance our environmental sustainability efforts.

Through this Environmental Policy, we strive to reduce our energy consumption, promote waste reduction, optimise our transportation practices, and engage our employees in environmental stewardship. We believe that by acting responsibly and innovatively, we can contribute to a greener future while providing high-quality vending machine services to our clients.

If you have any further questions or concerns regarding this environmental policy, please do not hesitate to contact us via webform at [www.mixandvend.co.uk](http://www.mixandvend.co.uk).
